Jimmy Jiang z.

13 Years UI / UX Design Experience   http://jimmyjz.com

EXPERIENCE

Senior UX Designer
Ericsson

Jan 2019 – Mar 2024   2019.1 – 2019.8 Contract | 2019.9 – 2024.3 Permanent

Responsible for UX design in Ericsson IoT Connected Vehicles. This cloud platform is connecting over 20 million vehicles across 150 countries.

I am a dedicated designer in this project. My role is to provide simple and flexible UX solution to complex issues, and ensure the usability of final deliverables. I apply Ericsson Design System in the product, and help to iterate the design system with the experience I leaned from the project.

Besides of Connected Vehicles product, we also designed a mobile demo app and a Vehicle Simulator, to help our potential customers have an intuitive understanding about how our connectivity capability supports the vehicle end-user's experience.

I left the company because Ericsson sold its entire IoT business in 2023, and later the employees in China were laid off.

Senior UX Designer
RIB Software SE

May 2017 – Dec 2018

Responsible for UX design of iTWO 3D. It's a desktop BIM (Building Information Modeling) integration tool based on Autodesk Revit, used by construction professionals.

As the only designer in this new project, I created and maintained a design system to keep UI elements and interaction pattern consistent. I also designed a Product Center website, where our customers can find feature introduction and tutorials.

I left the company because the project ceased development in the end of 2018, and the team was dismissed.
